Beautiful and intuitive file management

Unleash the power of AI — Skip the manual work and let AI help you with automatic tagging and making text in your images searchable.
(Coming soon)

Search made easy — Find the right files within seconds with Swivle's powerful tagging and filtering.

Visual interface — Always have a visual overview of your files with thumbnails and full previews.
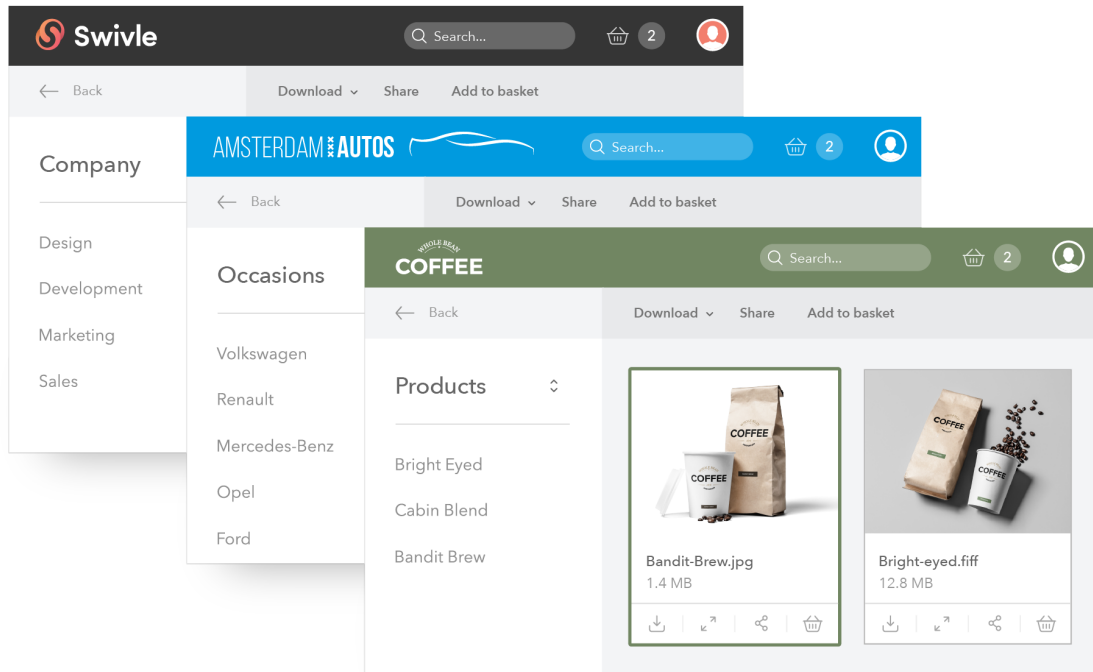

Less organizing, more creating

Collaborate as a team — Improve collaboration with our 1-click share functionality. Make comments, design recommendations, approvals and uploads all from the shared file.

Never lose a file version again — With automatic versioning we keep track of all the different versions of our life, so you can easily go back to the version you loved the most.

Share your work with ease

Branded portals — Create multiple public and private portals. Each with their own unique content, styling and subdomain. Perfect for sharing your public brand assets or sharing work with clients.

1-click share — No need for third party file transfer services - just click to share.

Request upload — Let other people upload their files straight into Swivle. Ideal for working with clients or freelancers.

Integrates in your workflow

Best-in-class Adobe Indesign integration — Eliminate manual steps. Simply open your InDesign files directly from Swivle, or save from InDesign back into the cloud.

API — We have a rich set of API's that allow you to build your own integrations with Swivle. For example, directly publish your approved assets to any CMS, MDM, PIM and E-commerce website.
